

## Ocean Engineering Seminar Series, Spring 2016

All Seminars are on Tuesday afternoons at 3:30 p.m. in  
115 Gore Hall

unless otherwise noted.

OPEN TO THE PUBLIC

Date	Title & Speaker
Tuesday February 16, 2016	<i>Remote Determination of Currents and Volumetric Discharge in a Tidal Inlet</i> Erika Johnson Postdoctoral Scholar Woods Hole Oceanographic Institution
Tuesday March 8, 2016	<i>Incipient Motion within the Wave Bottom Layer</i> Donya Frank Naval Research Laboratory
Tuesday April 19, 2016	<i>The Interaction of Homogeneous Isotropic Turbulence with Solid and Sediment Boundaries: An experimental investigation</i> Blair Johnson Cornell University
Tuesday May 10, 2016	<i>Toward Modeling Mud-Flow Interactions in the Two-Phase Flow Framework</i> Julian Chauchat Visiting Scholar, Center for Applied Coastal Research Assoc. Prof., LEGI, Grenoble, France
